SUBJECT INDEX FOR VOLUME 34, 1972

A

Abstracts
  Southern Section, A.S.A.S., 342
  Western Section, A.S.A.S. and Western Branch, C.S.A.S., 885
Acid, formic
  Effect of, and dried steep liquor concentrate on digestibility and steer growth from corn silage, 127
Acids, volatile fatty
  Amino acids, and glucose in plasma of insulin-treated sheep, 767
Acrosome morphology
  Of boar spermatozoa incubated before cold shock, 278
ACTH
  Effects of humidity and temperature on porcine plasma adrenal corticoids, and growth hormone levels, 809
Adrenalectomy, influence of
  On embryonic mortality in thermally stressed ewes, 605
Albumin
  Effects of orally administered, and corn oil on blood constituents, survival and weight gain in neonatal pigs, 411
Aldehyde-treated fish
  And soybean meals as dietary supplements for growing lambs, 488
American Society of Animal Science Award
  In Animal Management, 369
Amino acid absorption, mucosal
  Relationship of selected cations to, and phosphatase activity by isolated bovine jejunal segments, 805
Amino acid composition, free
  Of porcine seminal, epididymal and seminal vesicle fluids, 430
Amino acids
  A plasma reference index for predicting limiting, of sheep and rats, 660
  Volatile fatty acids and glucose in plasma of insulin-treated sheep, 767
Amino acids, free
  In ram seminal plasma, 601
Ammonia inhalation
  Effects of, on respiration rate of rabbits, 448
Androgens, testicular and blood plasma
  In Holstein bulls from birth through puberty, 435
Anemia
  Plasma iron and total iron-binding capacity in piglets in, and iron administration, 421
Angus-Holstein herd
  Relationships of cow weights, measures and scores with progeny characters in an, 185
Animal performance
  Effect of various roughages in high concentrate beef cattle diets on, and carcass characteristics, 142
Animal Sciences
  Support for research in, 677
Animal Sciences students
  Business training needs of, 1089
Antibiotics, the use of
  F & D A Task Force report on, in animal feeds, 705
Auditory stimuli
  Physiological response of lambs to, 994
Award
  Younger scientist, for excellence in research, 521
Award in Animal Management
  American Society of Animal Science, 369

B

B-vitamin synthesis, microbial
  Rumen development in lambs. III., 826
Beef carcasses
  Radii epiphyseal closure as an indicator of physiological maturity in, 42
Beef cattle size
  For maximum efficiency, 875
Beef cattle type
  And body composition for maximum efficiency, 870
  For maximum efficiency "Putting it all together," 881
Beef herds, commercial
  Economics of replacement rates in, 921
Beef milk production
  For maximum efficiency, 864
Biopsy sample analysis
  To predict bovine muscle palatability with emphasis on tenderness, 49
Biopsy technique, a
  For sampling the gracilis muscle in the baby pig, 752
Biopsy technique
  And analyses for predicting pork quality, 25
Bloat in cattle. XVI.
  Development and application of techniques for selecting drugs to prevent feedlot bloat, 234
Bloat severity scale
  Rumen pressures associated with the scores of a, 171
Blood constitutents
  Effects of orally administered albumin and corn oil on, survival and weight gain in neonatal pigs, 411
Blood constituents
  Effects of orally administered compounds on, at 8 and 56 hours, survival and weight gains in neonatal pigs, 416
Blood serum
  Estradiol and progesterone in, during the bovine estrous cycle, 1020
Boar
  Thermoregulation in the scrotal system of the, I. Temperature distribution, 112
Boar spermatozoa
  Acrosome morphology of, incubated before cold shock, 278
Boars
  Variation among, in semen characteristics and fertility, 762
Body weight changes
  Of mature beef cows, 491
Bovine jejunal segments, isolated
  Relationship of selected cations to mucosal amino acid absorption and phosphatase activity by, 805
Bovine, prenatal and neonatal
  Thyroid function in the, 780

Breed, influence of
And plane of nutrition on the performance of dairy, dual-purpose and beef steers. I. Birth to 180 days of age, 1037
II. From 180 days of age to slaughter, 1046
Brewers dried grains
Effect of corn distillers solubles and, with yeast in urea-containing rations on steer performance, 326
Bulls, beef
Variance of gain of, in central stations, 538
Bulls, Holstein
Testicular and blood plasma androgens in, from birth through puberty, 435

C

Calcium
Availability to ponies of, and phosphorus from various supplements, 979
Calcium, effects of dietary
And phosphorus on performance and carcass, metacarpal and turbinate characteristics of swine, 746
Calcium, graded levels of
Effects of added fat with, to urea-containing rations for beef cattle, 483
Calves, Holstein
Distribution and turnover rates of radioactive manganese in various tissues after duodenal dosing in, fed a practical-type diet, 460
Calves, isolated
Composition of the ruminal flora and establishment of ruminal ciliated protozoal species in, 469
Carcass characteristics
Effect of various roughages in high concentrate beef cattle diets on animal performance and, 142
Castration, effect of
Testosterine and slaughter weight on fatty acid content of ovine adipose tissue, 384
Castration, effects of
And slaughter weight on fatness, cooking losses and palatability of lamb, 560
Castration, effects of
On ovine neutral and phospholipid deposition, 338
Cations, selected
Relationship of, to mucosal amino acid absorption and phosphatase activity by isolated bovine jejunal segments, 805
Cattle
Effect of pre-slaughter starvation in, 555
Effect of prolonged thermal exposure on growth hormone (GH) secretion in, 776
Interrelationship of dietary molybdenum and copper on growth and tissue composition of, 516
Cattle, Angus
A discussion of the genetic aspects of weight, mature weight and rate of maturing in Hereford and, 525
Cattle, beef
Effect of added fat with graded levels of calcium, to urea-containing rations for, 483
Effect of feeding raw sugar on growth, performance and rumen fluid parameters of fattening, 820
Effect of level of pasture supplementation on pasture, drylot and total performance of, II. Spring plus summer pasture, 647
Empirical selection indexes for, 549
Gonadotropin levels for multiple births in, 77
Protein and energy utilization during compensatory growth in, 310
Cattle, cold tolerant and heat tolerant
Effect of constant ambient temperatures of 10C and 31C on ruminal responses of, 64
Cattle, dairy
Research on liquid nitrogen supplements for, 166
Short term changes in plasma corticoids in, 103
Cattle erythrocytes
Glucose-6-phosphate dehydrogenase and NADPH diaphorase in, 75
Cattle, growing
Tolerance of, for sulfate-water, 256
Cattle, Hereford
Heterosis in preweaning maternal traits among lines of, 14
Cattle, Hereford and Angus
A discussion of the genetic aspects of weight, mature weight and rate of maturing in, 525
Cattle, prepuberal
In vitro progesterone synthesis by corpora lutea induced in, 1025
Cattle, range
Serum protein and protein fractions in unsupplemented, 931
Cattle, tropically adapted
Physiology of pregnancy in, II. Changes in maternal and fetal pituitary follice stimulating hormone and luteinizing hormone content throughout pregnancy, 266
Cattle, young
Comparison of ^{99}Mo metabolism in, and swine, 846
Cellulose
Post-ruminal digestion of, in wethers and steers, 161
Charcoal, activated
Effect of prolonged oral administration of, and of ronnel on the well-being of sheep, 322
Chick
Nutritional evidence concerning formation of glycine from threonine in the, 582
α-Chlorohydrin
Reversible infertility in male swine fed, 241
Cis and *trans* isomers, high
Comparative efficacy of the, of diethylstilbestrol for steers, 497
Cis-clomiphene, effects of
On serum LH and prolactin levels and on the response to LH-RH in the ewe, 294
Classification score, cow type
Evaluation of, and its relationship to cow productivity, 1
Coastal bermudagrass
Performance of steers on Pensacola bahiagrass, and Coastcross-1 bermudagrass pastures and pellets, 373
Coastal bermudagrass pellets
Effect of maturity on the nutritive value of, 1061
Coastcross-1 bermudagrass
Performance of steers on Pensacola bahiagrass, Coastal bermudagrass and, pastures and pellets, 373
Collagen, soluble
Influence of dietary protein on the, of porcine skin and muscle, 952
Constitution and By-Laws of the American Society of Animal Science, Inc. 365
Copper
Interrelationship of dietary molybdenum and, on growth and tissue composition of cattle, 516
Related effects of, zinc and iron on performance, hematology and copper stores of pigs, 393

Corn
Effect of feeding, inoculated with *diplodia zeae* in laboratory animals, 225
Effect of *Helminthosporium maydis* infection on feeding value of, 132
Molasses, sugar (sucrose), tallow, soybean oil and mixed fats as sources of energy for growing swine, 217
Corn, digestibility of
Influence of grinding, supplemental nitrogen source and roughage on the, 672
Corn grain and corn silage
Net energy evaluation of cattle-finishing rations containing varying proportions if, 851
Corn, high lysine
Lysine supplementation of, and normal corn-peanut meal diets for growing swine, 587
Corn, normal
Effects of, normal corn plus lysine and *opaque-2* corn diets on serum protein and reproductive performance of gravid swine, 974
Corn oil
Effects of orally administered albumin and, on blood constituents, survival and weight gain in neonatal pigs, 411
Corn silage
Effect of farmic acid and dried steep liquor concentrate on digestibility and steer growth from, 127
Effect of potassium fertilization on chemical characteristics, yield and nutritive value of, 642
Corpora lutea
Effects of litter and male on, of the postpartum Mongolian gerbil, 297
In vitro progesterone synthesis by, induced in prepuberal cattle, 1025
Cow, adrenal function in the
Diurnal changes and the effects of lactation and neurohypophyseal hormones, 630
Cows
Frequency of transuterine migration of embryos in ewes and, 791
Cows, beef
Estimating milk yield of, 9
Cows, mature beef
Body weight changes of, 491
Cows, range beef
Lifetime effects of winter supplemental feed level and age at first parturition on, 1067
Cow weights, measures and scores
Relationships of, with progeny characters in an Angus-Holstein herd, 185
Cryptorchids
Growth and carcass characters of rams, wethers and ewes subcutaneously implanted with zeranol, 336
Cyclophosphamide, administration of
Cytoplasmic degeneration in the wool follicle bulb following, 273
Cyclophosphamide dosage
Effects of, on the rate of wool loosening, 246

D

Diethylstilbestrol
Comparative efficacy of the high *cis* and high *trans* isomers of, for steers, 497
Diethylstilbestrol, effects of
Plus emthyltestosterone and dietary protein level on swine performance and composition, 397
Diethylstilbestrol in sheep
Liver and gastrointestinal metabolism of, 786
Diet composition, effect of
On performance of lambs reared from birth on milk replacer, 1085
Diets, beef cattle finishing
Level of peanut hulls as a roughage source in, 146
Diets for growing-finishing pigs
Supplementation of lysine, ammonium polyphosphate and urea in, 55
Diets, high concentrate beef cattle
Effect of various roughages in, on animal performance and carcass characteristics, 142
Diets, normal corn-peanut meal
Lysine supplementation of high lysine corn and, for growing swine, 587
Digestion trials, conventional *vs.* nylon bag technique
For determining seasonal difference in quality of Midland bermudagrass forage, 1075
Diplodia zeae
Effect of feeding corn inoculated with, in laboratory animals, 225
Distillers solubles, effect of corn
And brewers dried grains with yeast in urea-containing rations on steer performance, 326
Duodenal dosing
Distribution and turnover rates of radioactive manganese in various tissues after, in Holstein calves fed a practical-type diet, 460

E

Efficiency, maximum
Beef cattle size for, 875
Beef cattle type and body composition for, 870
Beef cattle type for, "Putting it all together," 881
Beef milk production for, 864
Electromyography
And resting membrane potential in *longissimus* muscle of stress-susceptible and stress-resistant pigs, 379
Embryos, transuterine migration of
Frequency of, in ewes and cows, 791
Endometrial extracts
Lyteolytic effects of, in the pig, 620
Endometrium, bovine
Influence of undernutrition on the histology and histochemistry of the, 453
Energy, digestible
During maintenance of the light horse, 981
Erratum, 372
Estradiol
And progesterone in blood serum during the bovine estrous cycle, 1020
17β-estradiol, effect of
On pituitary gonadotropins and luteal function in gilts, 427
Estrous cycle, bovine
Estradiol and progesterone in blood serum during the, 1020
Estrous cycles
Effects of stress factors on the, of beef heifers, 1003
Ewe
Effects of cis-clomiphene on serum LH and prolactin levels and on the response to LH-RH in the, 294
Ewes
Early pregnancy detection in, by intrarectal reflection echo ultrasound, 772

Frequency of transuterine migration of embryos in, and cows, 791
Growth and carcass characters of rams, cryptorchids, wethers and, subcutaneously implanted with zeranol, 336
Investigation of sperm transport failures in, administered synthetic progestagen, 609
Levels of luteinizing hormone in sera of, near the time of estrus as determined by radioimmunoassay, 88
Ewes, anestrous
Some factors affecting response of, to hormone treatment, 1011
Ewes, artificially inseminated
Relationship between gestation length of, and number, weight and sex of lambs born, 441
Ewes, lactating
Space allowance for, confined to slotted floors when penned with single or twin lambs, 180
Ewes, Rambouillet
Influence of season and nutrition on luteal plasma progesterone in, 627
Ewes, range
Effect of level of protein and energy during flushing on lambing performance if, 479
Ewes, thermally stressed
Influence of adrenalectomy on embryonic mortality in, 605

F

Fats, saturated and unsaturated
High fat rations for ruminants. I. The addition of, to high roughage and high concentrate rations, 501
Fatty acid content
Effect of castration, testosterone and slaughter weight on, of ovine adipose tissue, 384
Fatty acid production, volatile
Performance of grazing steers as related to, after different lengths of *in vitro* fermentation, 636
Feed, conversion of
Efficiencies of, to fiber of Angora goats and Rambouillet sheep, 319
Feed intake control of sheep
Rumen osmolality as a factor in, 1054
Feed intake, restricted
Effect of, on LH levels in female rats, 445
Feed level, winter supplemental
Lifetime effects of, and age at first parturition on range beef cows, 1067
Feedlot bloat
Bloat in cattle. XVI. Development and application of techniques for selecting drugs to prevent, 234
Fertility
Variation among boars in semen characteristics and, 762
Fiber types
A method for the separation of, from skeletal muscle, 563
Follicle, ovulating
Identification of the, by its size on different days of the estrous cycle in heifers, 85
Flora, ruminal
Composition of the, and establishment of rujinal ciliated protozoal species in isolated calves, 469
Fluids, seminal vesicle
Free amino acid composition of porcine seminal, epididymal and, 430
F & D A Task Force
Report on the use of antibiotics in animal feeds, 705
Food, the importance of
In the affairs of man, 857
Forage, Midland bermudagrass
Conventional digestion trials *vs.* nylon bag technique for determining seasonal difference in quality of, 1075
Forages, nutrient digestibility of
Voluntary intake and, by goats and sheep, 830

G

Gain, variance of
Of beef bulls in central stations, 538
Gerbil, postpartum Mongolian
Effects of litter and male on corpora lutea of the, 297
Gestation, length
Relationship between, of artificially inseminated ewes and number, weight and sex of lambs born, 435
Gilts
Effect of 17β-estradiol on pituitary gonadotropins and luteal function in, 427
Glucose
Amino acids, volatile fatty acids and, in plasma of insulin-treated sheep, 767
Glucose-6-phosphate dehydrogenase
And NADPH diaphorase in cattle erythrocytes, 75
Glycine, formation of
Nutritional evidence concerning, from threonine in the chick, 582
Goats
Voluntary intake and nutrient digestibility of forages by, and sheep, 830
Goats, Angora
Efficiencies of conversion of feed to fiber of, and Rambouillet sheep, 319
Gonadotropin levels
For multiple births in beef cattle, 77
Gonadotropins, pituitary
Effect of 17β-estradiol on, and luteal function in gilts, 427
Growth, compensatory
Protein and energy utilization during, in beef cattle, 310
Guinea pigs
Phenotypic and genetic parameters for growth in, 193

H

Heat exchange, evaporative
Thermoregulation in the scrotal system of the boar. II., 117
Heifers
Feedlot performance of, fed melengestrol acetate and oxytetracycline separately and in combination, 339
Identification of the ovulating follicle by its size on different days of the estrous cycle in, 85
Heifers, beef
Age and weight at puberty and conception in different breeds and breed-crossing of, 1031
Effects of stress factors on the estrous cycles of, 1003
Heifers, different breeds and breed-crosses of beef
Age and weight at puberty and conception in, 1031
Helminthosporium maydis infection
Effect of, on feeding value of corn, 132

Hemaglobin concentration
And thermostability in neonatal piglets, 82
Hematology
Related effects of copper, zinc and iron on performance, and copper stores of pigs, 393
Herefords
Partitioning lactation TDN consumption in, between maintenance, gain and milk production, 153
Heterosis
In preweaning maternal traits among lines of Hereford cattle, 14
Holstein heifers
Ovarian characteristics and serum LH, prolactin, progesterone and glucocorticoid from first estrus to breeding size in, 284
Hormone, follicle stimulating and luteinizing
Physiology of pregnancy in tropically adapted cattle. II. Changes in maternal and fetal pituitary, content throughout pregnancy, 266
Hormone, growth (GH)
Effect of prolonged thermal exposure on, secretion in cattle, 776
Hormone levels, growth
Effects of humidity and temperature on porcine plasma adrenal corticoids, ACTH and, 809
Hormone luteinizing
Levels of, in sera of ewes near the time of estrus as determined by radioimmunoassay, 88
Hormone treatment
Some factors affecting response of anestrous ewes to, 1011
Hormones, neurohypophyseal
Adrenal function in the cow. Diurnal changes and the effects of lactation and, 630
Horse, light
Digestible energy during maintenance of the, 981
Humidity and temperature, effects of
On porcine plasma adrenal corticoids, ACTH and growth hormone levels, 809
Hydrogen ion concentration
Organic acid, and buffering capacity of rumen content from bloated and nonbloated steers given different medicants, 653

I

Index, a plasma reference
For predicting limiting amino acids of sheep and rats, 660
Indexes, empirical selection
For beef cattle, 549
Inorganic salts of magnesium
Availability of different, to sheep, 122
Insulin-treated sheep
Amino acids, volatile fatty acids and glucose in plasma of, 767
Iron
Effect of elevated dietary levels of, on iron store in liver, some blood constituents and phosphorus deficiency in young swine, 573
Related effects of copper, zinc and, on performance, hematology and copper stores of pigs, 393
Iron administration
Plasma iron and total iron-binding capacity in piglets in anemia and, 421
Iron, availability of
Contained in defluorinated phosphate, 569

L

Lactation performance, 21-day
Effect of dietary lysine levels on, of first-litter sows, 408
Lactation TDN consumption
Partitioning, in Herefords between maintenance, gain and milk production, 153
Lactose-amino acid interactions
In rations, 757
Lamb
Effects of testosterone enanthate on, carcass composition and quality, 30
Lamb, palatability of
Effects of castration and slaughter weight on fatness, cooking losses and, 560
Lamb, prepuberal
LH release and ovulation in the, 614
Lambing performance
Effect of level of protein and energy during flushing on, of range ewes, 479
Lambs
Effects of "soluble silica" upon growth of, 839
Influence of methane inhibition on energetic efficiency of, 510
Physiological response of, to auditory stimuli, 994
Relationship between gestation length of artificially inseminated ewes and number, weight and sex of, born, 435
Response of hyperthyroid, euthyroid and hypothyroid, to exogenous thyroxine, 988
Lambs, Finnsheep-cross
Performance of artificially reared, 935
Lambs, growing
Aldehyde-treated fish and soybean meals as dietary supplements for, 488
Lambs, growing-finishing
Encapsulated methionine supplement for, 332
Lambs, hyperthyroid, euthyroid and hypothyroid
Response of, to exogenous thyroxine, 988
Lambs, noninbred
Selecting for weight and rate of gain in, 713
Lambs, performance of
Effect of diet composition on, reared from birth on milk replacer, 1085
Lambs, ram
Genetic resources for efficient meat production in sheep. Growth and carcass characteristics of, of seven breeds, 940
Lambs, rumen development in
III. Microbial B-vitamin synthesis, 826
Lambs, single or twin
Space allowable for lactating ewes confined to slotted floors when penned with, 180
Lambs, slaughter
Influence of sex, stilbestrol treatment and slaughter weight on performance and carcass traits, of, 203
LH levels
Effect of restricted feed intake on, in female rats, 445
LH release
And ovulation in the prepuberal lamb, 614
Liquor concentrate, dried steep
Effect of formic acid and, on digestibility and steer growth from corn silage, 127
Liver
And gastrointestinal metabolism of diethylstilbestrol in sheep, 786
Liver, bovine

Bovine serum lipids. III. Qualitative changes from the isolated perfused, 799
Longissimus muscle
Electromyography and resting membrane potential in, of stress-susceptible and stress-resistant pigs, 379
Luteal function in gilts
Effect of 17β-estradiol on, pituitary gonadotropins and, 427
Luteolytic effects,
Of endometrial extracts in the pig, 620
Lysine, ammonium polyphosphate and urea
Supplementation of, in diets for growing-finishing pigs, 55
Lysine, dietary levels
Effect of, on 21-day lactation performance of first-litter sows, 408
Lysine supplementation
Of high lysine corn and normal corn-peanut meal diets for growing swine, 587

M

Magnesium, inorganic salts of
Availability of different, to sheep, 122
Manganese, radioactive
Distribution and turnover rates of, in various tissues after duodenal dosing in Holstein calves fed a practical-type diet, 460
Mastectomy
Effects of suckling and, on bovine post-partum reproduction, 70
Meat production, efficient
Genetic resources for, in sheep. Growth and carcass characteristics of ram lambs of seven breeds, 940
Meat production, selection for
In sheep—Results of a progeny test, 737
Meat Science research
The next 50 years in, 957
Melengestrol acetate
Feedlot performance of heifers fed, and oxytetracycline separately and in combination, 339
Metabolism, gastrointestinal
Liver and, of diethylstilbestrol in sheep, 786
Metabolism, rumen
In sheep as influenced by interactions among the ration's energy content, physical form and buffers, 813
Methane inhibition, influence of
On energetic efficiency of lambs, 510
Methionine supplement, encapsulated
For growing-finishing lambs, 332
Methyltestosterone
Effects of diethylstilbestrol plus, and dietary protein level on swine performance and composition, 397
Mice
Relation of age and weight at puberty to reproductive performance in two lines of, selected for 42-day weight, 596
Milk production, beef
For maximum efficiency, 864
Milk replacer
Effect of diet composition on performance of lambs reared from birth on, 1085
Milk yield
Estimating, of beef cows, 9
Mink *(mustela vison)*
Electro-ejaculation of, 230
Mitochondria
Respiration of, isolated from dark-cutting beef: Postmortem changes, 46
^{99}Mo metabolism
Comparison of, in young cattle and swine, 846
Molasses
Sugar (sucrose), corn, tallow, soybean oil and mixed fats as sources of energy for growing swine, 217
Molybdenum, dietary
Interrelationship of, and copper on growth and tissue composition of cattle, 516
Monte Carlo studies
Of selection and inbreeding in swine. IV. Selection response, 726
Multiple births
Gonadotropin levels for, in beef cattle, 77
Muscle enlargement
A brief study of, in the rat, 21
Muscle fiber types
Postnatal development of, in domestic animals, 37
Muscle, gracilis
A biopsy technique for sampling the, in the baby pig, 752
Muscle, skeletal
A method for the separation of fiber types from, 563
Muscle tenderness, bovine
Evaluation of the tenderometer for predicting, 960

N

NADPH diaphorase
Glucose-6-phosphate dehydrogenase and, in cattle erythrocytes, 75
News and Notes, 182, 370, 523, 703, 918, 1093
Newsprint
Effect of, on ration palatability and ruminoreticular parameters of beef steers, 137
Nitrogen source, supplemental
Influence of grinding, and roughage on the digestibility of corn, 672
Nitrogen supplements, liquid
Research on, for dairy cattle, 166
Nitrogen utilization
In ponies, 592
Nutrition, plane of
Influence of breed and, on the performance of dairy, dual-purpose and beef steers.
I. Birth to 180 days of age, 1037
II. From 180 days of age to slaughter, 1046
Nutritional studies
With *opaque-2* and high protein *opaque-2* corns, 963
Nutritive value
Effect of maturity on the, of Coastal bermudagrass pellets, 1061
Nylon bag technique
Conventional digestion trials *vs.*, for determining seasonal difference in quality of Midland Bermudagrass forage, 1075

O

Opaque-2 corn diets
Effects of normal corn, normal corn plus lysine and, on serum protein and reproductive performance of gravid swine, 974
Opaque-2 corns
Nutritional studies with *opaque-2* and high protein, 963

Ovarian characteristics
And serum LH, prolactin, progesterone and glucocorticoid from first estrus to breeding size in Holstein heifers, 284
Ovine estrus cycle
Levels of prostaglandins in the uterine endometrium during the, 93
Ovine yield grades. II.
Palatability attributes within various quality grades, 196
Ovulation
LH release and, in the prepuberal lamb, 614
Oxytetracycline
Feedlot performance of heifers fed melengestrol acetate and, separately and in combination, 339

P

Palatability attributes
Ovine yield grades. II., within various quality grades, 196
Palatability, bovine muscle
Biopsy sample analysis to predict, with emphasis on tenderness, 49
Parameters, abomasal
Influence of time after feeding on certain, 475
Parameters, phenotypic and genetic
For growth in guinea pigs, 193
Parameters, ruminoreticular
Effect of newsprint on ration palatability and, of beef steers, 137
Parturition, first
Lifetime effects of winter supplemental feed level and age at, on range beef cows, 1067
Pasture, spring plus summer
Effect of level of pasture supplementation on pasture, drylot and total performance of beef cattle. II., 647
Peanut hulls
Level of, as a roughage source in beef cattle finishing diets, 146
Pelage traits
In neonatal wild, domestic and "crossbred" piglets, 100
Pensacola bahiagrass
Performance of steers on, Coastal bermudagrass and coastcross-1 bermudagrass pastures and pellets, 373
Phosphatase activity
Relationship of selected cations to mucosal amino acid absorption and, by isolated bovine jejunal segments, 805
Phosphate, defluorinated
Availability of iron contained in, 569
Phospholipid deposition
Effects of castration on ovine neutral and, 388
Phosphorus
Availability to ponies of calcium and, from various supplements, 979
Effects of dietary calcium and, on performance and carcass, metacarpal and turbinate characteristics of swine, 746
Phosphorus deficiency in young swine
Effect of elevated dietary levels of iron on iron store in liver, some blood constituents and, 573
Pig
Luteolytic effects of endometrial extracts in the, 620
Pig, baby
A biopsy technique for sampling the gracilis muscle in the, 752
Piglets
Pelage traits in neonatal wild, domestic and "crossbred," 100
Plasma iron and total iron-binding capacity in, in anemia and iron administration, 421
Piglets, neonatal
Hemoglobin concentration and thermostability in, 82
Pigs, growing and finishing
Viamin E and selenium for, 969
Pigs
Related effects of copper, zinc and iron on performance, hematology and copper stores of, 393
Supplementation of lysine, ammonium polyphosphate and urea in diets for growing-finishing, 55
Pigs, neonatal
Effects of orally administered albumin and corn oil on blood constituents, survival and weight gain in, 411
Effects of orally administered compounds on blood constituents at 8 and 56 hours, survival and weight gains in, 416
Pigs, stress-susceptible and stress-resistant
Electromyography and resting membrane potential in *longissimus* muscle of, 379
Plasma
Amino acids, volatile fatty acids and glucose in, of insulin-treated sheep, ...
Plasma adrenal corticoids, porcine
Effects of humidity and temperature on, ACTH and growth hormone levels, 809
Plasma corticoids
Short term changes in, in dairy cattle, 103
Plasma iron
And total iron-binding capacity in piglets in anemia and iron administration, 421
Plasma reference index, a
For predicting limiting amino acids of sheep and rats, 660
Ponies
Availability to, of calcium and phosphorus from various supplements, 979
Nitrogen utilization in, 592
Ponies, weanling and yearling
Effect of protein levels on the growth of, 578
Porcine plasma adrenal corticoids
Effects of humidity and temperature on, ACTH and growth hormone levels, 809
Porcine plasma growth hormone levels:
Radioimmunoassay technique and its application, 261
Porcine skin and muscle
Influence of dietary protein on the soluble collagen of, 952
Pork quality
Biopsy technique and analyses for predicting, 25
Potassium fertilization, effect of
On chemical characteristics, yield and nutritive value of corn silage, 642
Pouch perfusion system, a
Establishment of a rumen pouch in sheep and design of, 999
Pregnancy detection, early
In ewes by intrarectal reflection echo ultrasound, 772
Pregnancy, physiology of
In tropically adapted cattle. II. Changes in maternal and fetal pituitary follicle stimulating hormone and luteinizing hormone content throughout pregnancy, 266

Productivity, cow
Evaluation of cow type classification score and its relationship to, 1
Progeny characters
Relationships of cow weights, measures, and scores with, in an Angus-Holstein herd, 185
Progeny test
Selection for meat production in sheep—Results of a, 737
Progestagen induced sperm breakage
In the sheep vagina, 795
Progestagen, synthetic
Investigation of sperm transport failures in ewes administered, 609
Progesterone
Estradiol and, in blood serum during the bovine estrous cycle, 1020
Progesterone synthesis, *in vitro*
By corpora lutea induced in prepuberal cattle, 1025
Progesterone, luteal plasma
Influence of season and nutrition on, in Rambouillet ewes, 627
Prostaglandins
Levels of, in the uterine endometrium during the ovine estrous cycle, 93
Protein
And energy utilization during compensatory growth in beef cattle, 310
Effect of level of, and energy during flushing on lambing performance of range ewes, 479
Protein, dietary
Influence of, on the soluble collagen of porcine skin and muscle, 952
Protein fractions
Serum protein and, in unsupplemented range cattle, 931
Protein levels, effect of
On the growth of weanling and yearling ponies, 578
Protein, serum
Effects of normal corn, normal corn plus lysine and *opaque-2* corn diets on, and reproductive performance of gravid swine, 974
Protozoal species, ruminal ciliated
Composition of the ruminal flora and establishment of, in isolated calves, 469

R

Rabbit, the male
VI. Effects of ejaculation and season on testicular size and function, 302
Rabbits
Effects of ammonia inhalation on respiration rate of, 448
Radii epiphyseal closure
As an indicator of physiological maturity in beef carcasses, 42
Radioimmunoassay
Levels of luteinizing hormone in sera of ewes near the time of estrus as determined by, 88
Radioimmunoassay technique and its application
Porcine plasma growth hormone levels:, 261
Ram seminal plasma
Free amino acids in, 601
Rams
Growth and carcass characters of, cryptorchids, wethers and ewes subcutaneously implanted with zeranol, 336
Rat
A brief study of muscle enlargement in the, 21
Rations, high concentrate
High fat rations for ruminants. I. The addition of saturated and unsaturated fats to high roughage and, 501
Ration papatability
Effect of newsprint on, and ruminoreticular parameters of beef steers, 137
Rations, cattle-finishing
Net energy evaluation of, containing varying proportions of corn grain and corn silage, 851
Rations, urea-containing
Effect of corn distillers solubles and brewers dried grains with yeast in, on steer performance, 326
Rats
A plasma reference index for predicting limiting amino acids of sheep and, 660
Rats, female
Effect of restricted feed intake on LH levels in, 445
Report to the Commissioner of the Food and Drug Administration
Recommendations from the, by the F & D A on the use of antibiotics, 706
Replacement rates, economics of
In commercial beef herds, 921
Reproduction, bovine postpartum
Effects of suckling and mastectomy on, 70
Reproductive performance
Relation of age and weight at puberty to, in two lines of mice selected for 42-day weight, 596
Research, Animal Sciences
New directions and opportunities for, 695
Research, support for
In Animal Sciences, 677
Respiration rate
Effects of ammonia inhalation on, of rabbits, 448
Ronnel
Effect of prolonged oral administration of activated charcoal and of, on the well-being of sheep, 322
Roughage
Influence of grinding, supplemental nitrogen source and, on the digestibility of corn, 672
Roughage source
Level of peanut hulls as a, in beef cattle finishing diets, 146
Roughages, effect of various
In high concentrate beef cattle diets on animal performance and carcass characteristics, 142
Rumen content
Organic acid, hydrogen ion concentration and buffering capacity of, from bloated and nonbloated steers given different medicants, 653
Rumen development in lambs
III. Microbial B-vitamin synthesis, 826
Rumen fluid parameters
Effect of feeding raw sugar on growth, performance and, of fattening beef cattle, 820
Rumen osmolality
As a factor in feed intake control of sheep, 1054
Rumen pouch
Establishment of a, in sheep and design of a pouch perfusion system, 999
Rumen pressures
Associated with the scores of a bloat severity scale, 171
Ruminants
High fat rations for, I. The addition of saturated and unsaturated fats to high roughage and high concentrate rations, 501
Ruminants
Influence of tannins on the nutritive value of soybean meal for, 465

S

Science support climate, the
In the United States, 685
Selenium
Vitamin E and, for growing and finishing pigs, 969
Selenium, natural dietary
α-tocopherol and effect on tissue selenium, 208
Semen characteristics
Variation among boars in, and fertility, 762
Serum lipids, bovine
III. Qualitative changes from the isolated perfused bovine liver, 799
Serum protein
And protein fractions in unsupplemented range cattle, 931
Sheep
A plasma reference index for predicting limiting amino acids of, and rats, 660
Availability of different inorganic salts of magnesium to, 122
Effect of prolonged oral administration of activated charcoal and of ronnel on the well-being of, 322
Establishment of a rumen pouch in, and design of a pouch perfusion system, 999
Genetic resources for efficient meat production in,. Growth and carcass characteristics of ram lambs of seven breeds, 940
Liver and gastrointestinal metabolism of diethylstilbestrol in, 786
Rumen metabolism in, as influenced by interactions among the ration's energy content, physical form and buffers, 813
Rumen osmolality as a factor in feed intake control of, 1054
Selection for meat production in,—Results of a progeny test, 737
Voluntary intake and nutrient digestibility of forages by goats and, 830
Sheep, breeds of
Two- and three-way crosses estimating combining ability of Suffolk, Targhee and Shropshire, 541
Sheep, insulin-treated
Amino acids, volatile fatty acids and glucose in plasma of, 767
Sheep, Rambouillet
Efficiencies of conversion of feed to fiber of Angora goats and, 319
Sheep vagina
Progestagen induced sperm breakage in the, 795
"Soluble silica," effects of
Upon growth of lambs, 839
Sorghum grain processing
Commercial feedlot evaluation of four methods of, 926
Sows, normal and agalactic
Endocrine function in, 270
Soybean meal
Influence of tannins on the nutritive value of, for ruminants, 465
Soybean meals
Aldehyde-treated fish and, as dietary supplements for growing lambs, 488
Soybean oil
Molasses, sugar (sucrose), corn, tallow, and mixed fats as sources of energy for growing swine, 217
Sows, first-litter
Effect of dietary lysine levels on 21-day lactation performance of, 408
Space allowance
For lactating ewes confined to slotted floors when penned with single or twin lambs, 180
Sperm breakage
Progestagen induced, in the sheep vagina, 795
Sperm transport failures
Investigation of, in ewes administered synthetic progestagen, 609
Starvation, pre-slaughter
Effect of, in cattle, 555
Steer growth
Effect of formic acid and dried steep liquor concentrate on digestibility and, from corn silage, 127
Steer performance
Effect of corn distillers solubles and brewers dried grains with yeast in urea-containing rations on, 326
Steers
Comparative efficacy of the high *cis* and high *trans* isomers of diethylstilbestrol for, 497
Response of hyperthyroid, euthyroid and hypothyroid, to exogenous thyroxine, 983
Steers
Post-ruminal digestion of cellulose in wethers and, 161
Zearalanol metabolism in, 176
Steers, beef
Effect of newsprint on ration palatability and ruminoreticular parameters of, 137
Steers, bloated and nonbloated
Organic acid, hydrogen ion concentration and buffering capacity of rumen content from, given different medicants, 653
Steers, dairy, dual-purpose and beef
Influence of breed and plane of nutrition on the performance of. I. Birth to 180 days of age, 1037
II. From 180 days of age to slaughter, 1046
Steers, grazing
Performance of, as related to volatile fatty acid production after different lengths of *in vitro* fermentation, 636
Steers, hyperthyroid, euthyroid and hypothyroid
Response of, to exogenous thyroxine, 993
Steers, performance of
On Pensacola bahiagrass, Coastal bermudagrass and Coastcross-1 bermudagrass pastures and pellets, 373
Stilbestrol treatment
Influence of sex, and slaughter weight on performance and carcass traits of slaughter lambs, 203
Stress factors, effects of
On the estrous cycles of beef heifers, 1003
Students, animal sciences
Business training needs of, 1089
Suckling, effects of
And mastectomy on bovine postpartum reproduction, 70
Sugar (sucrose)
Corn, tallow, soybean oil and mixed fats as sources of energy for growing swine, 217
Sugar, raw
Effect of feeding, on growth, performance and rumen fluid parameters of fattening beef cattle, 820
Sulfate-water
Tolerance of growing cattle, for, 256
Support climate, science
The, in the United States, 685
Support for research
In Animal Sciences, 677
Swine
Comparison of ^{99}Mo metabolism in young cattle and, 846

Effects of dietary calcium and phosphorus on performance and carcass, metacarpal and turbinate characteristics of, 746
Monte Carlo Studies of selection and inbreeding in, IV. Selection response, 726
Lysine supplementation of high lysine corn and normal corn-peanut meal diets for growing, 587
Use of tritiated water to assess, *in vivo*, the effect of dietary particle size on the mixing of stomach contents of, 212
Swine excrement
Nutritive value of aerobically sustained, 403
Swine, gravid
Effects of normal corn, normal corn plus lysine and *opaque-2* corn diets on serum protein and reproductive performance of, 974
Swine, growing
Molasses, sugar (sucrose), corn, tallow, soybean oil and mixed fats as sources of energy for, 217
Swine, male
Reversible infertility in, fed α-chlorohydrin, 241
Swine, young
Effect of elevated dietary levels of iron on iron store in liver, some blood constituents and phosphorus deficiency in, 573
Swine performance and composition
Effects of diethylstilbestrol plus methyltestosterone and dietary protein level on, 397
Swine production system, a
Based on the use of one pen from birth to marketing, 709

T

Tallow
Molasses, sugar (sucrose), corn, soybean oil and mixed fats as sources of energy for growing swine, 217
Tannins, influence of
On the nutritive value of soybean meal for runinants, 465
Temperature distribution
Thermoregulation in the scrotal system of the boar, I., 112
Temperature, effects of humidity and
On porcine plasma adrenal corticoids, ACTH and growth hormone levels, 809
Temperatures, constant ambient
Effect of, of 10C and 31C on ruminal responses of cold tolerant and heat tolerant cattle, 64
Tenderometer, evaluation of the
For predicting bovine muscle tenderness, 960
Testosterone
Effect of castration, and slaughter weight on fatty acid content of ovine adipose tissue, 384
Testosterone enanthate, effects of
On lamb carcass composition and quality, 30
Thermal exposure, prolonged
Effect of, on growth hormone (GH) secretion in cattle, 776
Thermoregulation
In the scrotal system of the boar. I. Temperature distribution, 112
Thermostability
Hemoglobin concentration and, in neonatal piglets, 82
Threonine in the chick
Nutritional evidence concerning formation of glycine from, 582
Thyroid function
In the prenatal and neonatal bovine, 780
Thyroxine, exogenous
Response of hyperthyroid, euthyroid and hypothyroid steers to, 983
Response of hyperthyroid, euthyroid and hypothyroid lambs to, 988
Tissue, ovine adipose
Effect of castration, testosterone and slaughter weight on fatty acid content of, 384
α-tocopherol
Natural dietary selenium, and effect on tissue selenium, 208
Transuterine migration of embryos
Frequency of, in ewes and cows, 791
Tritiated water, use of
To assess, *in vivo*, the effect of dietary particle size on the mixing of stomach contents of swine, 212

U

Ultrasonic, echo
Early pregnancy detection in ewes by intrarectal reflection, 772
Undernutrition, influence of
On the histology and histochemistry of the bovine endometrium, 453
Urea-containing rations
Effect of added fat with graded levels of calcium to, for beef cattle, 483

V

Vitamin E
And selenium for growing and finishing pigs, 969

W

Weight, genetic aspects of
A discussion of the mature weight and rate of maturing in Hereford and Angus cattle, 525
Weight, slaughter
Effect of castration, testosterone and, on fatty acid content of ovine adipose tissue, 384
Wethers
Growth and carcass characters of rams, cryptorchids, and ewes subcutaneously implanted with zeranol, 336
Post-ruminal digestion of cellulose in, and steers, 161
Wool follicle bulb
Cytoplasmic degeneration in the, following administration of cyclophosphamide, 273
Wool loosening
Effects of cyclophosphamide dosage on the rate of, 246
Wool retention and regrowth
Effects of cyclophosphamide dosage on, 250

Z

Zearalanol metabolism
In steers, 176
Zeranol
Growth and carcass characters of rams, cryptorchids, wethers and ewes subcutaneously implanted with, 336
Zinc
Related effects of copper, and iron on performance, hematology and copper stores of pigs, 393

AUTHOR INDEX FOR VOLUME 34, 1972

Page numbers of abstracts for the National and Sectional Meetings are identified by an asterisk.

SUBJECT INDEX FOR VOLUME 35, 1972

A

Abstracts
Annual Meetin AS.A.S., 165
Midwestern Section, A.S.A.S., 1087
Northeast Section, A.S.A.S., 283
Acid, fatty
Effect of breed type and feeding regime on, composition of certain bovine tissues, 1058
Acids, fatty
Total phospholipid and phospholipid, of ejaculated and epididymal semen and seminal vesicle fluids of boars, 398
Acids, rumen volatile fatty
Relationship of, to type of grain, sorghum grain processing method, and feedlot performance, 404
ACTH
Corticoids and luteal function in heifers, 789
Aflatoxin
Response of calves to a single dose of, 65
Agricultural science and technology
The council for, 1351
Aldrin, effect of
Urea and DES on the physiology of beef heifers fed a concentrate or roughage diet, 978
Alimentary tracts of lambs
Development of microbial activity in the, 450
Air environment
And animal performance, 628
Amino acids
Biological availability of, 713
Ammonia, aqueous
Improving digestibility of straws for ruminant feed by, 109
Ammonia toxicity
A comparison of nitrogen metabolism and, from ammonium acetate and urea in cattle, 1263
Ammonium acetate
A comparison of nitrogen metabolism and ammonia toxicity from, and urea in cattle, 1263
Angus females
Relationships among weights, gains and earliness of maturing in Hereford and, 507
Angus-Holstein crossbred herd
Effects of calf sex and age of dam on pre- and post-weaning performance of calves from an, 1155
Animal performance
And air environment, 628
Animal waste, dried
As a protein supplement for sheep, 431
Antibiotics in animal feed, the use of
Implementation of the recommendations contained in the report to the commissioner concerning, 1340

B

Beef cattle
Influence of herd, sire and herd x sire interactions on live and carcass characters of, 502
Beef carcasses
Maternal effects in,
Beef females
Reproductive performance and physiological responses of, as affected by a prolonged high environmental temperature, 820
Beef sires
Comparison of criteria for selecting introduced, 321
Level and distribution of potassium in, 542
Biuret
As a nitrogen supplement for flushing range ewes, 606
Urea and natural proteins as nitrogen supplements for low quality roughage for sheep, 121
Blood lactic acid
And behaviour in cattle with hereditary muscular hypertrophy, 1011
Blood meal
Prevention of zinc deficiency in swine by feeding, 1176
Blood metabolites
Relationship of dietary caloric density and certain, to voluntary feed intake in mature wethers, 1239
Boars
Total phospholipid and phospholipid fatty acids of ejaculated and epididymal semen and seminal vesicle fluids of, 398
Body measurements, correlated responses of
In swine selected for high and low fatness, 743
Bone measurements
The relationship between certain, and cutability of beef carcasses, 518
Bovine
Effect of dietary screened sawdust on health, feed intake and performance of the, 460
Bovine laterality, 486
Bovine serum lipids IV
The influence of added saturated and unsaturated fat to the ration, 611
Breed type, effect of
And feeding regime on fatty acid composition of certain bovine tissues, 1058
Breeding
Influence of widely diverse finishing regimens and, on depot fat composition in beef cattle, 1069
Buffers, effect of some
On storage and freezing of boar spermatozoa, 377
Bulls, slaughter
Use of hormones or hormone active agents in production of, 752

C

Calcium
Effect of, and starch additions upon ration digestibility by steers, 410
Calcium and phosphorus requirement
Of young pigs reared under controlled environmental conditions, 1194
Calcium levels
In high grain beef cattle rations, 415
Calf gain
Utility of glutathione and hemaglobin as predictors of, 8
Calf production
Genotype-environment interaction in, I. Growth traits, 317
Calf sex, effects of

And age of dam on pre- and post-weaning performance of calves from an Angus-Holstein crossbred herd, 1155
Caloric density, dietary
Relationship of, and certain blood metabolites to voluntary feed intake in mature wethers, 1239
Calves
Response of, to a single dose of aflatoxin, 65
Carcass and growth traits in swine
Heritabilities and genetic correlations of, 311
Carcass traits in swine
Estimates of genotype-environment interactions in production and, 1
Carcasses, beef
The relationship between certain bone measurements and cutability of, 518
Cassava-rice bran diet
Energy value of a, with and without supplemental zinc for growing pigs, 953
Castration, effects of weight and
On lamb carcass composition and quality, 926
Cattle
A comparison of nitrogen metabolism and ammonia toxicity from ammonium acetate and urea in, 1263
EKG, respiratory, saliva flow and serum mineral changes associated with KCl-citric acid induced tetany in, 986
Metabolism of 1-(α-Methylallylthiocarbamoyl)-2-Methylthiocarbamoylhydrazine (Methallibure) in, 97
Cattle, beef
Effects of inbreeding on fertility and livability in, 725
Estimation of maternal heterosis in pre-weaning traits of, 1146
Influence of widely diverse finishing regimens and breeding on depot fat composition in, 1069
Cattle, fecal output of
Influence of dose level and method of administration on the use of polyethylene glycol for determining, 1054
Cattle, feeder
Shrink during shipment of, 489
Cattle, feedlot
Effects of melengestrol acetate on the performance of, receiving corn silage rations, 1257
Environmental implications in economy of gain in, 148
Factors affecting water consumption by, 871
Nutritional implications in economy of gain of, 153
Cattle with hereditary myscular hypertrophy
Blood lactic acid and behaviour in, 1011
Chloesterol, serum
Relationship of sugar-induced lesions in the heart of the pig to live weight, and diet, 31
Coastal bermudagrass, pelleted
Corn silage, urea and, in steer finishing systems, 466
Combustion, heat of
Correlations of nitrogen to the, of rat urine, 38
Copper sulfate
In steer rations, 436
Corn silage
Urea and pelleted Coastal bermudagrass in steer finishing systems, 466
Corn silage rations
Effects of melengestrol acetate on the performance of feedlot cattle receiving, 1257
Corns, high oil
Effects of feeding, to growing-finishing swine, 357
Corpora lutea function
And pregnancy maintenance in gilts following unilateral ovariectomy, unilateral uterine horn transection and unilateral ovariectomy-uterine horn transection, 569
Corticoids
ACTH, and luteal function in heifers, 789
Cortisol turnover
In heat-stressed cows, 1005
Council, the
For Agricultural science and technology, 1351
Cow, pregnant
Serum growth hormone, LH and prolactin in the, 51
Cows, beef
Reproductive response of, to exogenous progestogen, estrogen and gonadotropins at various stages postpartum, 363
Cows, heat-stressed
Cortisol turnover in, 1005
Cows, Hereford
Weaning weight related to subsequent most probable producing ability in, 327
Criteria, comparison of
For selecting introduced beef sires, 321
Cutability of beef carcasses
The relationship between certain bone measurements and, 518

D

Dam, age of
Effects of calf sex and, on pre- and post-weaning performance of calves from an Angus-Holstein crossbred herd, 1155
Defleecing, chemical
Field investigation of, of sheep, 497
DES
Effect of aldrin, urea and, on the physiology of beef heifers fed a concentrate or roughage diet, 978
Dexamethasone
Effects of acute injections of, on selective deposition of bovine intramuscular fat, 351
Diet, roughage
Effect of aldrin, urea and DES on the physiology of beef heifers fed a concentrate or, 978
Dietary protein, level of
Influence of, and source of supplemental soybean protein on rate and efficiency of gain of pigs weaned at an early age, 963
Diets, beef cattle finishing
Processed municipal solid waste as a roughage and supplemental protein source in, 139
Diets, corn gluten and fish meal supplemented semi-purified
Abomassal and blood plasma nitrogen constituents of wethers fed, 1020
Diets, soybean oil-supplemented
Digestibility of hydrogenated tallow, saturated fatty acids and, by sheep, 890
Diethylstilbestrol and methyltestosterone
Effect of a combination of, on performance, carcass traits, serum and muscle characteristics of pigs, 525
Digesta passage
Post-prandial patterns of ovine ruminoreticular motility and, 102
Dithiocarbamoylhydrazine (ICI 33828)
Pituitary gonatropin levels, endocrine gland and reproductive organ weights of gilts fed a, 370

E

Embryos, number of
Effect of, on embryonic survival in recipient gilts, 805
Energy exchange, physical principles of, 624
Environment, animal
Gravity as a factor in the, 635
Environmental implications
In economy of gain in feedlot cattle, 148
Enzymatic activity
Lipogenesis and, in pig adipose tissue as influenced by source of dietary fat, 41
Equine
Digestion and utilization of cecally infused protein by the, 1190
Estradiol inhibition
Of ovine luteal progesterone synthesis *in vitro*, 1206
Estrogen analysis
Of neonatal bovine urine using gas-liquid chromatography, 843
Estradiol valerate
Plasma LH, progestins and corticoids in heifers injected with, and FSH during estrous synchronization with MGA, 90
Estrogen
Reproductive response of beef cows to exogenous progestogen, and gonadotropins at various states postpartum, 363
Ewe
Changes in hypothalamic biogenic amines and serum LH in the, during the estrous cycle, 801
Comparison between natural service and artificial insemination with fresh or frozen sperm at an appointed time in them, 572
Inhibition by progesterone of IUD-induced luteal regression in the, 1001
Ewe, anestrous
Effect of ovariectomy on serum luteinizing hormone (LH) concentrations in the, 73
Ewe lambs
Factors affecting reproduction in, 79
Ewe, pregnancy in the
A rectal-abdominal palpation technique for diagnosing, 814
Ewes
Postpartum mating performance of, involved in a twice-yearly lambing program, 836
Ewes, anestrous
Effects of synthetic luteinizing hormone-releasing hormone/follicle stimulating hormone-releasing hormone (LS-RH/FSH-RH) on serum LH, serum FSH and ovulation in, 84
Ewes, inseminated
Failure of vasectomized rams to improve sperm transport in, 69
Ewes, range
Biuret as a nitrogen supplement for flushing, 606
Extender composition and incubation period
Interaction of, on cold shock susceptibility of boar spermatozoa, 580

F

Fasting, effects of
On tissue shrinkage in rats, 345
Fat, bovine intramuscular
Effects of acute injections of dexamethasone on selective deposition of, 351
Fat composition, depot
Influence of widely diverse finishing regimens and breeding on, in beef cattle, 1069
Fat, dietary
Lipogenesis and enzymatic activity in pig adipose tissue as influenced by source of, 41
Fat, porcine carcass
Distribution and composition of, 534
Fat, saturated and unsaturated
Bovine serum lipids IV. The influence of added, to the ration, 611
Fatness, high and low
Correlated responses of various body measurements in swine selected for, 743
Fatty acids, saturated
Digestibility of hydrogenated tallow, and soybean oil-supplemented diets by sheep, 890
Feed industry
Reaction and implications, 1338
Feeding, effects of high and low
At two stages of the estrous cycle on follicular development in gilts from four genetic groups, 1210
Feed level, effect of
And parity on ovulation rate in three genetic groups of swine, 1216
Feedlot gain, economy of
Genetic implications in, 144
Feedlot performance
Relationship of rumen volatile fatty acids to type of grain, sorghum grain processing method, and, 404
Feedlot performance of steers
Climatic, breed and ration effects on, and carcass characteristics, 591
Fetus, bovine
Serum growth hormone, LH and prolactin in the, and neonate, 56
Fistulation, effect of ruminal and esophageal
On ruminal parameters, saliva flow, EKG patterns and respiratory rate of beef steers, 1248
Fleeces, second-year
Chemical shearing effects on, 62
Follicle stimulating hormone
Effects of synthetic luteinizing hormone-releasing hormone, releasing hormone (LH-RH/FSH-RH) on serum LH, serum FSH and ovulation in anestrous ewes, 84
Follicular development in gilts
Effects of high and low feeding at two stages of the estrous cycle on, from four genetic groups, 1210
Forage consumed by goats
Chemical composition and *in vitro* digestibility of, on lightly and heavily stocked ranges, 1014
Forage nutritive value
Use of ultraviolet spectra values plus phenol and quaiacal to predict, 133
FSH
Plasma LH, progestins and corticoids in heifers injected with estradiol valerate and, during estrouch synchronization with MGA, 90

G

Gain, economy of
Environmental implications in, in feedlot cattle, 148
Nutritional implications in, of feedlot cattle, 153
Gas-liquid chromatography
Estrogen analysis of neonatal bovine urine using, 843

Genotype-environment interaction
In calf production. I. Growth traits, 317
Genotype-environment interactions
Estimates of, in production and carcass traits in swine, 1
Genetic implications
In economy of feedlot gain, 144
Gestation, stage of
When uterine capacity limits embryo survival in gilts, 383
Gilts
Corpora lutea function and pregnancy maintenance in, following unilateral ovariectomy, unilateral uterine horn transection and unilateral ovariectomy-horn transection, 569
Effect of number of embryos on embryonic survival in recipient, 805
Effects of high and low feeding at two stages of the estrous cycle on follicular development in, from four genetic groups, 1210
Pituitary gonadotropin levels, endocrine gland and reproductive organ weights of, fed a dithiocarbamoylthydrazine (ICI 33828), 370
Gilts, early pregnant
Ovarian compensatory hypertrophy following unilateral ovariectomy in hysterectomized and, 809
Gilts, embryo survival in
State of gestation when uterine capacity limits, 383
Gilts, puberal
Ovarian response to fasting following high and low planes of nutrition in, 1223
Gilts, reproductive performance of
Fed diets low in protein during gestation and lactation, 772
Glutathione, utility of
And hemoglobin as predictors of calf gain, 8
Goats
Chemical composition and *in vitro* digestibility of forage consumed by, on lightly and heavily stocked ranges, 1014
Gonadotropins
Reproductive response of beef cows to exogenous progestogen, estrogen and, at various stages postpartum, 363
Gossypol, intravenously injected
Rate of depletion and route of elimination of, in swine, 941
Grain, whole shelled and crimped corn
Utilization of, with varying proportions of corn silage by growing-finishing steers, 591
Grains, rumen utilization of
An evaluation of the nylon bag technique for estimating, 113
Gravity
As a factor in the animal environment, 635
Growth and metabolism
Effect of high levels of urea in purified diets for lambs, 848
Growth, rate of
As influenced by selection for high and low fatness in swine, 730
Growth traits
Genotype-environment interaction in calf production, I., 317

H

Halogeton poisoning of sheep
Effect of high level oxalate intake, 1233
Heifers
ACTH, corticoids and luteal function in, 789
Plasma LH, progestins and corticoids in, injected with estradiol valerate and FSH during estrous synchronization with MGA, 90
Heifers, beef
Effect of aldrin, urea and DES on the physiology of, fed a concentrate or roughage diet, 978
Heifers, dairy
Effect of melengestrol acetate on plasma progesterone luteinizing hormone and total corticoids in, 389
Hemiacetal of chloral and starch, effects of a
On methane production and energy balance of sheep fed a pelleted diet, 1064
Hemoglobin
Utility of glutathione and, as predictors of calf gain, 8
Hereford and Angus females
Relationships among weights, gains and earliness of maturing in, 507
Heterosis, maternal
Estimation of, in pre-weaning traits of beef cattle, 1146
Histidine, dietary
Alleviation of parakeratosis in zind deficient swine by high levels of, 1181
Hormone active agents
Use of hormones or, in production of slaughter bulls, 752
Hormone concentrations, serum luteinizing (LH)
Effect of ovariectomy on, in the anestrous ewe, 73
Hormone, exogenous treatment
Effects of early weaning and, on bovine postpartum reproduction, 1228
Hormone, serum growth
LH and prolactin in the pregnant cow, 51
LH and prolactin in the bovine fetus and neonate, 56
Hormone treatment
Influence of sex and, on performance and carcass composition of swine, 1166
Hormones, use of
Or hormone active agents in production of slaughter bulls, 752
Horn transection, unilateral uterine
Corpora lutea function and pregnancy maintenance in gilts following unilateral ovariectomy, and unilateral ovariectomy-uterine horn transsection, 569
Horse
Magnesium metabolism in the, 755
Horse, the thoroughbred
Heritability of racing performance and a selection index for breeding potential in, 1141
Hydrogenated tallow, digestibilty of
Saturated fatty acids and soybean oil-supplemented diets by sheep, 890
Hypertrophy, heritary muscular
Blood lactic acid and behaviour in cattle with, 1011
Hypertrophy, ovarian compensatory
Following unilateral ovariectomy in hysterectomized and early pregnant gilts, 809
Hypothalamic biogenic amines, changes in
And serum LH in the ewe during the estrous cycle, 801
Hypothalamic cells in the roe-buck
Seasonal variations of nuclear size of, 967

I

Immunity, passive
In newborn animals, 1275
Immunoglobulins, porcine
Influence of orally administered, on survival and performance of newborn colostrum-deprived pigs, 1201
Inbreeding, effects of
On fertility and livability in beef cattle, 725
Inheritance, animal
Mitochrondria and, 1280
Insemination, artificial
Comparison between natural service and, with fresh or frozen sperm at an appointed time in the ewe, 572
Intake assay results, voluntary
Effects of pre-conditioning on, using sheep, 619
Interactions, influence of herd, sire and herd x sire
On live and carcass characters of beef cattle, 502
Ions, major mineral
Biological availability of nutrients in feeds: availability of, 695
Ions, minor mineral
Biological availability of: a review, 681
IUD-inducted luteal regression
Inhibition by progesterone of, in the ewe, 1001

K

KCL-Citric acid induced tetany in cattle
EKG, respiratory, saliva flow and serum mineral changes associated with, 986

L

Lamb carcass composition
Effects of weight and castration on, and quality 926
Lambs
Development of microbial activity in the alimentary tract of, 450
Effect of high levels of urea in purified diets for,: Growth and metabolism, 848
Effects of zeranol, dietary protein level and methionine hydroxy analog on growth and carcass characters and certain blood metabolites in lambs, 128
Studies of the adaptation phenomenon by, fed urea as the sole nitrogen source. Chemical alterations in ruminal and blood parameters, 1036
Lambs, consuming low quality hay
Pressure cooked urea-cassava meal for, 865
Lambs, early-weaned
Performance of, as affected by sound type and intensity, 481
Lesions, sugar-induced
Relationship of, in the heart of the pig to live weight, serum cholesterol and diet, 31
LH
Serum growth hormone, and prolactin in the bovine fetus and neonate, 56
Serum growth hormone, and prolactin in the pregnant cow, 51
L-cystine requirements
L-methionine and, of the growing rat, 782
Lipogenesis
And enzymatic activity in pig adipose tissue as influenced by source of dietary fat, 41
L-methionine
And L-cystine requirements of the growing rat, 782
Loin eye area
Estimating, in swine with a single ultrasonic measurement, 1160
Luteal function in heifers
ACTH, corticoids and, 789
Luteinizing hormone, effects of synthetic
Releasing hormone/follicle stimulating hormone-releasing hormone (LH-RH/FAH-RH) on serum LH, serum FSH and ovulation in anestrous ewes, 84
Lysine
Availability of opaque-2 corn for rats, 551

M

Magnesium, metabolism of
Effects of high dietary potassium intake on the, by sheep, 440
Magnesium utilization
Effect of form and level of nitrogen on, 1046
Maternal effects
Comparative aspects of, 1335
Maternal effects in animals
Biometrical aspects of, 1288
Maternal effects in laboratory species, 1294
Maternal effects in swine, 1303
Maternal effects in beef cattle, 1316
Mating performance, postpartum
Of ewes involved in a twice-yearly lambing program, 836
Measurement, ultrasonic
Estimating loin eye area in swine with a single, 1160
Measurements, live and carcass
As indicators of lean cut yield in swine, 25
Melengestrol acetate, effect of
On plasma progesterone luteinizing hormone and total corticoids in dairy heifers, 389
Melengestrol acetate, effects of
On the performance of feedlot cattle receiving corn silage rations, 1257
Metabolism
Effect of high levels of urea in purified diets for lambs. Growth and metabolism, 848
Metabolism
Of 1-(α-methylallylthiocarbamoyl)-2-methylthiocarbamolyhydrazine (methallibure) in cattle, 97
Metabolism, connective tissue
In swine. III. The influence of methallibure on connective tissue development in fetal swine, 974
Metabolism, magnesium
In the horse, 755
Metabolism of ^{14}C-Diethylstilbestrol
In sheep, 1031
Metabolism of nitrogen
In Boran and in Hereford-Boran crossbred steers, 1025
Methallibure, the influence of
Connective tissue metabolism in swine. III., on connective tissue development in fetal swine, 974
Methane production and energy balance
Effects of a hemiacetal of chloral and starch on, of sheep fed a pelleted diet, 1064
Methionine, abomasally infused
Abomasal nitrogen, plasma amino acids and nitrogen balance responses of wethers to fed or, 446

Methionine hydroxy analog
Effects of zeranol, dietary protein level and, on growth and carcass characters and certain blood metabolites in lambs, 128
Methallibure
Metabolism of 1-(α-methylallylthiocarbamoyl)-2-methylthiocarbamoylhydrazine, in cattle, 97
Methyltestosterone
Effect of a combination of diethylstilbestrol and, on performance, carcass traits, serum and muscle characteristics of pigs, 525
Mice
Dynamics of genetic and maternal effects in, 911
Microorganisms, ruminal
Urea and sodium bicarbonate metabolism by ruminants and by, 877
MGA, estrous synchronization with
Plasma LH, progestins and corticoids in heifers injected with estradiol valerate and FSH during, 90
Mitochrondria and animal inheritance, 1280
Molasses, cane
Effect of different levels of, on nitrogen and energy utilization in urea rations for steers, 854
Molasses dried beet pulp-urea, use of
As an NPN source for young ruminants, 1083
Molasses-urea
For restricted forage fed steers in the tropics, 859
Mucosa, bovine cervical
Influence of a progestogen on the histology and carbohydrate histochemistry of the, 830
Muscle growth
The problem of muscle fibers with an intrafascicular termination, 336

N

Neonate
Serum growth hormone, LH and prolactin in the bovine fetus and, 56
News and Notes, 308, 495, 724, 908, 1137, 1399
Nitrogen
Correlations of, to the heat of combustion of rat urine, 38
Effect of different levels of cane molasses on, and energy utilization in urea rations for steers, 854
Effect of form and level of, on magnesium utilization, 1046
Nitrogen metabolism
A comparison of, and ammonia to toxicity from ammonium acetate and urea in cattle, 1263
At three stages of development and its relationship to measurements of carcass composition in fat and lean type swine, 556
Nitrogen retention in pigs
During the estrous cycle of pregnancy and after hysterectomy or ovariectomy, 580
Nitrogen supplement
Biuret as a, for flushing range ewes, 606
Nitrogen supplements
Biuret, urea and natural proteins as, for low quality roughage for sheep, 121
Nutrition
Effect of light and behavior on, 642
Nutrition, high and low planes of
Ovarian response to fasting following, in puberal gilts, 1223
Nutritional implications
In economy of gain of feedlot cattle, 153
n-Valeric acid
In stomachs and on unwashed hair of swine, 160
Nylon bag technique
An evaluation of the, for estimating rumen utilization of grains, 113

O

Opaque-2 corn
Lysine availability of, for rats, 551
Ovarian response to fasting
Following high and low planes of nutrition in puberal gilts, 1223
Ovariectomy, effect of
On serum luteinizing hormone (LH) concentrations in the anestrous ewe, 73
Ovariectomy, unilateral
Corpora lutea function and pregnancy maintenance in gilts following, unilateral uterine horn transection and unilateral ovariectomy-uterine horn transection, 569
Ovulation
Effects of synthetic luteinizing hormone-releasing hormone/follicle stimulating hormone-releasing hormone (LH-RH/FSH-RH) on serum LH, serum FSH and, in anestrous ewes, 84
Ovulation rate
Effect of feed level and parity on, in three genetic groups of swine, 1216
Oxalate, high level intake
Halogeton poisoning of sheep: Effect of, 1233

P

Parakeratosis, alleviation of
In zinc deficient swine by high levels of dietary histidine, 1181
Parameters, biochemic and hematologic
Systematic oscillations of, in Sinclair (S-1) miniature swine, 48
Parameters, ruminal and blood
Studies of the adaptation phenomenon by lambs fed urea as the sole nitrogen source. Chemical alterations in, 1036
Parity, effect of feed level and
On ovulation rate in three genetic groups of swine, 1216
Pelleting
Influence of source of soybean protein, and of, on rate of gain and gain/feed of growing swine, 958
Pharmaceutical industry
Reaction and implication, 1342
Phenol
Use of ultraviolet spectra values plus, and quaiacal to predict forage nutritive value, 133
Pig
Effect of porcine growth hormone on growth and carcass composition of the, 794
Pig adipose tissue
Lipogenesis and enzymatic activity in, as influenced by source of dietary fat, 41
Relationship of sugar-induced lesions in the heart of the, to live weight, serum cholesterol and diet, 31
Pigs
Effect of a combination of diethylstilbestrol and methyltestosterone on performance, carcass traits, serum and muscle characteristics of, 525

Effects of pyrantel HCl and dietary protein on growing, infected in different sequences with *Stongyloides ransomi, Ascaris suum and Oesophagostomum* spp., 561
Influence of level of dietary protein and source of supplemental soybean protein on rate and efficiency of gain of, weaned at an early age, 963
Nitrogen retention in, during the estrous cycle or pregnancy and after hysterectomy or ovariectomy, 585
Pigs, growing
Energy value of a cassava-rice bran diet with and without supplemental zinc for, 953
Pigs, newborn colostrum-deprived
Influence of orally administered porcine immunoglobulins on survival and performance of, 1201
Pigs, young
Calcium and phosphorus requirement of, reared under controlled environmental conditions, 1194
Pituitary and adrenocortical function
Of stress susceptible swine, 995
Plasma LH, progestins and corticoids
In heifers injected with estradiol valerate and FSH during estrous synchronization with MGA, 90
Polyethylene glycol, the use of
Influence of dose level and method of administration on the, for determining fecal output of cattle, 1054
Porcine growth hormone, effect of
On growth and carcass composition of the pig, 794
Pork loins
Effect of location of chops in the medial loin region and position of cores in cross section of the *longissimus* muscle on tenderness and juiciness
^{40}K count, whole-body
Importance of different levels of potassium in the diet on, and muscle and blood potassium, 931
Potassium
Level and distribution of, in beef carcasses, 542
Potassium, influence of dietary
And of *trans*-aconitic acid on mineral metabolism related to ovine phosphatic urolithiasis, 901
Potassium in the diet
Importance of different levels of, on whole-body ^{40}K count and muscle and blood potassium, 931
Potassium intake, high dietary
Effects of, on the metabolism of magnesium by sheep, 440
Potassium, muscle and blood
Importance of different levels of potassium in the diet on whole-body ^{40}K count and, 931
Proceedings of the 64th Annual Meeting of the American Society of Animal Science, 1349
Progestogen, exogenous
Reproductive response of beef cows to, estrogen and gonadotropins at various stages postpartum, 363
Progestogen, influence of a
On the histology and carbyhydrate histochemistry of the bovine cervical mucosa, 830
Progesterone, inhibition by
Of IUD-induced luteal regression in the ewe, 1001
Progesterone synthesis, ovine luteal
Estradiol inhibition of, *in vitro*, 1206
Prolactin
Serum growth hormone, LH and, in the pregnant cow, 51
Serum growth hormone, LH and, in the bovine fetus and neonate, 56
Protein and energy
Use of regression equations in predicting availability of, 658
Protein, cecally infused
Digestion and utilization of, by the equine, 1190
Protein, dietary
Effects of pyrantel HCl and, on growing pigs infected in different sequences with *strongyloides ransomi, Ascaris suum* and *Oesophagostomum* ssp, 561
Protein, diets low in
Reproductive performance of gilts, fed, during gestation and lactation, 772
Protein level
Effect of ration composition and, on plasma free tryptophan and ruminal microbial tryptophan content in sheep, 896
Protein level, dietary
Effects of zeranol, and methionine hydroxy analog on growth and carcass characters and certain blood metabolites in lambs, 128
Protein level sequence, effects of
And sex on rate and efficiency of gain of growing swine, and on carcass characteristics, including composition of lean tissue, 760
Protein source, supplemental
Processed municipal solid waste as a roughage and, in beef cattle finishing diets, 139
Protein supplement
Dried animal waste as a, for sheep, 431
Protein, supplemental soybean
Influence of level of dietary protein and source of, on rate and efficiency of gain of pigs weaned at an early age, 963
Proteins, natural
Biuret, urea and, as nitrogen supplements for low quality roughage for sheep, 121
Pyrantel HCl, effects of
And dietary protein on growing pigs infected in different sequences with *strongyloides ransomi, Ascaris suum* and *Oesophagostomum* ssp., 561

Q

Quaiacal
Use of ultraviolet spectra values plus phenol and, to predict forage nutritive value, 128

R

Racing performance, heritability of
And a selection index for breeding potential in the thoroughbred horse, 1141
Rams, vasectomized
Failure of, to improve sperm transport in inseminated ewes, 69
Rat urine
Correlation of nitrogen to the heat of combustion of, 38
Rat, the growing
L-methionine and L-cystine requirements of, 782
Ration composition, effect of
And protein level on plasma free tryptophan and ruminal microbial tryptophan content in sheep, 896
Rations, beef cattle
Starea, ura and sulfur in, 474
Rations, high grain beef cattle
Calcium levels in, 415

Rations, steer
Copper sulfate in, 436
Rats
Lysine availability of *opaque-2* corn for, 551
Rats, tissue shrinkage in
Effects of fasting on, 345
Rectal-abdominal palpation technique, a
For diagnosing pregnancy in the ewe, 814
Regression equations, use of
In predicting availability of protein and energy, 658
Reproduction
Factors affecting, in ewe lambs, 79
Reproduction, bovine postpartum
Effects of early weaning and exogenous hormone treatment on, 1228
Roe-buck
Seasonal variations of nuclear size of hypothalamic cells in the, 967
Role of maternal effects in animal breeding, the:
I. Passive immunity in newborn animals, 1275
Roughage
Processed municipal solid waste as a, and supplemental protein source in beef cattle finishing diets, 139
Roughages, low quality
Chemical treatment of, 418
Rumen fermentation studies, *in vitro*
With a bird resistant sorghum grain, 1076
Ruminants
Urea and sodium bicarbonate metabolism by, and by ruminal microorganisms, 877
Ruminants, young
Use of molasses dried beet pulp-urea as an NPN source for, 1083
Ruminoreticular motility
Post-prandial patterns of, and digesta passage, 102

S

Sawdust, dietary screened
Effect of, on health, feed intake and performance of the bovine, 460
Selection index for breeding potential
Heritability of racing performance and a, in the thoroughbred horse, 1141
Serum LH
Changes in hypothalamic biogenic amines and, in the ewe during the estrous cycle, 801
Sex
Effects of protein level sequence and, on rate and efficiency of gain of growing swine, and on carcass characteristics, including composition of lean tissue, 760
Sex, influence of
And hormone treatment on performance and carcass composition of swine, 1166
Shearing effects, chemical
On second-year fleeces, 62
Sheep
Biuret, urea and natural proteins as nitrogen supplements for low quality roughage for, 121
Digestibility of hydrogenated tallow, saturated fatty acids and soybean oil-supplemented diets by, 890
Dried animal waste as a protein supplement for, 431
Effects of a hemiacetal of chloral and starch on methane production and energy balance of, fed a pelleted diet, 1064
Effects of high dietary potassium intake or metabolism of magnesium by, 440
Effects of pre-conditioning on voluntary intake assay results using, 619
Effect of ration composition and protein level on plasma free tryptophan and ruminal microbial tryptophan content in, 896
Field investigation of chemical defleecing of, 497
Halogeton poisoning of: Effect of high level oxalate intake, 1233
Metabolism of ^{14}C-diethylstilbestrol in, 1031
Sheep, maternal effects in
The role of maternal effects in animal breeding: VII, 1324
Sheep, nutrient digestibility in
Effects of water restriction on, receiving fixed water: feed ratios, 1271
Sheep, the summer diet of
Botanical and nutritive content of, on a tall forb range in southwestern Montana, 422
Shrink
During shipment of feeder cattle, 489
Sodium bicarbonate metabolism
Urea and, by ruminants and by ruminal microorganisms, 877
Sorghum grain, bird resistant
In vitro rumen fermentation studies with a, 1076
Sorghum grain processing method
Relationship of rumen volatile fatty acids to type of grain, and feedlot performance, 404
Sound type and intensity
Performance of early-weaned lambs as affected by, 481
Soybean protein, source of
Influence of, and of pelleting, on rate of gain and gain/feed of growing swine, 958
Space restriction, effect of
And ration on the incidence of stomach ulcers in swine, 767
Spermatozoa, boar
Effect of some buffers on storage and freezing of, 377
Interaction of extender composition and incubation period on cold shock susceptibility of, 580
Sperm transport
Failure of vasectomized rams to improve, in inseminated ewes, 65
Starch
Effect of calcium and, additions upon ration digestibility by steers, 410
Steer finishing systems
Corn silage, urea and pelleted Coastal bermudagrass in, 466
Effect of calcium and starch additions upon ration digestibility by, 410
Effect of different levels of cane molasses on nitrogen and energy utilization in urea rations for, 854
Metabolism of nitrogen in Boarn and in Hereford-Boarn crossbred, 1025
Molasses-urea for restricted forage fed, in the tropics, 859
Steers
Urea and sulfur in beef cattle rations, 474
Steers, beef
Effect of ruminal and esophageal fistulation on ruminal parameters, saliva flow, EKG patterns and respiratory rate of, 1248
Steers, carcass characteristics of
Climatic, breed and ration effects on feedlot performance and, 591

Steers, growing-finishing
Utilization of whole shelled and cromped corn grain with varying proportions of corn silage by, 598
Straws, digestibility
Improving, for ruminant feed by aqueous ammonia, 109
Stressor, environmental
Endocrine responses of stress susceptible and stress resistant swine to, 576
Strongyloides ransomi, Ascaris suum and *Oesophagostomum* ssp.
Effects of pyrantel HCl and dietary protein on growing pigs infected in different sequences with, 561
Sulfur
Starea, urea and, in beef cattle rations, 474
Swine
Correlated responses of various body measurements in, selected for high and low fatness, 743
Effect of feed level and parity on ovulation rate in three genetic groups of, 1216
Endocrine responses of stress susceptible and stress resistant, to environmental stressors, 576
Estimates of genotype-environment interactions in production and carcass traits in, 1
Heritabilities and genetic correlations of carcass and growth traits in, 311
Influence of sex and hormone treatment on performance and carcass composition of, 1166
Inheritance of gastric ulcers in, 20
Live and carcass measurements as indicators of lean cut yield in, 25
Nitrogen metabolism at three stages of development and its relationship to measurements of carcass composition in fat and lean type, 556
n-Valeric acid in stomachs and on unwashed hair of, 160
Rate of depletion and route of elimination of intravenously injected gossypol in, 941
Swine, carcass length
Predicting, from live measurements, 919
Swine, connective tissue metabolism in
III. The influence of methallibure on connective tissue development in fetal swine, 974
Swine, fatness in
Rate of growth as influenced by selection for high and low fatness in swine, 730
Swine, growing
Effects of protein level sequence and sex on rate and efficiency of gain; of on carcass characteristics, including composition of lean tissue, 760
Influence of source of soybean protein, and of pelleting, on rate of gain and gain/feed of, 958
Swine, growing-finishing
Comparison of wheat and grain sorghum for, 947
Effects of feeding high oil corns to, 357
Wheat in diets for, 778
Swine, loin eye area in
Estimating, with a single ultrasonic measurement, 1160
Swine, Sinclair (S-1) miniature
Systematic oscillations of serum biochemic and hematologic parameters in, 48
Swine, stomach ulcers in
Effect of space restriction and ration on the incidence of, 767
Swine, stress susceptible
Pituitary and adrenocortical function of, 995
Swine, zinc deficient
Alleviation of parakeratosis in, by high levels of dietary histidine, 1181
Swine, zinc deficiency in
Prevention of, by feeding blood meal, 1176

T

Temperature, a prolonged high environmental
Reproductive performance and physiological responses of beef females as affected by, 820
Tissues, bovine
Effect of breed type and feeding regime on fatty acid composition of certain, 1058
Tissue shrinkage
Effects of fasting on, in rats, 345
Trans-aconitic acid
Influence of dietary potassium and of, on mineral metabolism related to ovine phosphatic urolithiasis, 901
Tryptophan
Effect of ration composition and protein level on plasma free, and ruminal microbial, content in sheep, 896

U

Ulcers, gastric
Inheritance of, in swine, 20
Ultraviolet spectra values, use of Plus phenol and quaiacal to predict forage nutritive value, 133
Urea
A comparison of nitrogen metabolism and ammonia toxicity from ammonium acetate and, in cattle, 1263
And sodium bicarbonate metabolism by ruminants and by ruminal microorganisms, 877
Biuret, and natural proteins as nitrogen supplements for low quality roughage for sheep, 121
Corn silage, and pelleted Coastal bermudagrass in steer finishing systems, 466
Effect of aldrin, and DES on the physiology of beef heifers fed a concentrate of roughage diet, 978
Starea, and sulfur in beef cattle rations, 474
Studies of the adaptation phenomenon by lambs fed, as the sole nitrogen source. Chemical alterations in ruminal and blood parameters, 1036
Urea-cassava meal, pressure cooked
For lambs consuming low quality had, 865
Urea, effect of high levels of
In purified diets for lambs: Growth and metabolism, 848
Urea rations for steers
Effect of different levels of cane molasses on nitrogen and energy utilization in, 854
Urine, neonatal bovine
Estrogen analysis of, using gas-liquid chromatography, 843
Urolithiasis, ovine phosphatic
Influence of dietary potassium and of *trans*-aconitic acid on mineral metabolism related to, 901
Uterine capacity
State of gestation when, limits embryo survival in gilts, 383

V

Veal leg roasts
Effect of animal weight and palatibility of, 937

Vitamin A and carotene
Biological availability of fat-soluble vitamins: 648
Vitamins, fat-soluble
Biological availability of: Vitamin A and carotene, 648

W

Waste, processed municipal solid
As a roughage and supplemental protein source in beef cattle finishing diets, 139
Water consumption
Factors affecting, by feedlot cattle, 871
Water restriction, effects of
On nutrient digestibility of sheep receiving fixed water: feed ratios, 1271
Weaning, effects of early
And exogenous hormone treatment on bovine postpartum reproduction, 1228
Weight, weaning
Adjusting yearling weight ratio for selection on, 13
Related to subsequent most probable producing ability in Hereford cows, 327
Wethers
Abomasal and blood plasma nitrogen constituents of, fed corn gluten and fish meal supplemented semipurified diets, 1020
Wethers
Abomasal nitrogen, plasma amino acids and nitrogen balance responses of, to fed or abomasally infused methionine, 446
Wethers, mature
Relationship of dietary caloric density and certain blood metabolites to voluntary feed intake in, 1239
Wheat and grain sorghum, comparison of
For growing-finishing swine, 947
Wheat in diets
For growing-finishing swine, 778

Y

Yearling weight, ratio, adjusting
For selection on weaning weight, 13
Yield, lean cut
Live and carcass measurements as indicators of, in swine, 25

Z

Zea Mays L
In vivo evaluations of a brown midrib mutant of, 823
Zeranol, effects of
Dietary protein level and methionine hydroxy analog on growth and carcass characters and certain blood metabolites in lambs, 128
Zinc deficiency, prevention of
In swine by feeding blood meal, 1176
Zinc, supplemental
Energy value of a cassava-rice bran diet with and without, for growing pigs, 953

AUTHOR INDEX FOR VOLUME 35, 1972

Page numbers of abstracts for the National and Sectional Meetings are identified by an asterisk.
